

Seeking Persons with a Regular **Meditation Practice** to Participate in a Research Study

Researchers at the Johns Hopkins University are seeking individuals with a regular, long-term meditation practice to participate in a research study looking at the combined effects of meditation and psilocybin, a psychoactive substance found in sacramental mushrooms of some cultures. The study will investigate psychological and brain processes underlying such effects.

Volunteers must be between the ages of 25 and 80, have no personal or familial history of severe psychiatric illness, or recent history of alcoholism or drug abuse.

To discuss the possibility of volunteering or to learn more:

Phone: 410–550–2253 or

Email: meditation@jhmi.edu

Website: www.hopkinsmeditation.com

Confidentiality will be maintained for all applicants and participants.

Principal Investigator: Roland R. Griffiths, Ph.D., Protocol: NA_00047665
